## DATA CENTER SERVICES AND PRODUCTS

There is nothing new in business today that does not involve technology. Imprint Enterprises Network and Datacenter Sales Engineers can assess your current environment and establish capacity benchmarks for planning and growth considerations.

- Is your data center “healthy” enough to bring in new technology?
- Are you under cooled, over cooled or just right?
- Are you building a new computer room or data center?
- Are you consolidating equipment?
- Does your building have enough power?

## Our Datacenter Services Include:

- |   |  |
|---|--|
| ■ Complete Design Build                             | ■ Computational Fluid Dynamics Study (CFD)   |
| ■ Disaster Recovery / Business Continuity Solutions | ■ Complete Redesigns for Power and Cooling   |
| ■ Datacenter Reliability Assessments                | ■ Asset Discovery and Planning               |
| ■ Datacenter Growth Studies                         | ■ Colocation Services                        |
| ■ Datacenter Capacity Snapshots                     | ■ Under Floor Analysis, Above Floor Analysis |
